

## Scientific programme of the 3rd Another Phlebology Meeting

### Friday 4 October

8.30 – 10.00	<b>Practical course (Ultrasound, Laser, Microwave, Radiofrequency, Glue, Sclerotherapy) - registration is required (Chair: F. Zernovicky)</b>
--------------	-----------------------------------------------------------------------------------------------------------------------------------------------

	<b><i>Opening Ceremony (Chair: T. Sándor, I. Bihari)</i></b>
10.00 . 10.05	<b>What does Another Phlebology mean? I Bihari (Hungary)</b>
10.05 – 10.10	<b>Names from the history of Hungarian Phlebology T Sándor (Hungary)</b>
10.10 – 10.15	<b>The European diploma of phlebology S Vasdekis (Greece)</b>
10.15 – 10. 20	<b>Training path for European phlebologists D. Radu (Romania)</b>
10.20 – 10.30	<b>The Journal of the Hungarian Society is 25 years old E Kolossváry (Hungary)</b>

10.30 – 10.50 **Welcome reception**

	<b><i>Endothermal methods for varicose veins 1 (Chair: A Obermayer, I Rozsos)</i></b>
10.50 – 11.00	<b>Treatment of varicose veins with microwave I Rozsos et al. (Hungary)</b>
11.00 – 11.10	<b>Cryo fibrosis R Milleret (France)</b>
11.10 – 11.20	<b>Endovenous welding in minimally invasive treatment of chronic venous diseases L Chernukha, VL Horbovets et al. (Ukraine)</b>
11.20 – 11.30	<b>Extracorporeal high-intensity-focused-ultrasound (HIFU) treatment of varicose veins – first in human study A Obermayer (Austria)</b>
11.30 – 11.40	<b>Ultrasound guided laser ablation P Dragic et al. (Serbia)</b>
11.40 – 11.50	<b>Histological changes following closure FAST treatment K Brachmann et al. (Germany)</b>
11.50 – 12.00	<b>The use of laser thermoablation for the treatment of incompetent perforator veins – late results W Wozniak et al. (Poland)</b>
12.00 – 12.10	<b>1- Year results of endovenous Laser therapy with longer wavelength (1940nm) and lesser energy density (LEVEL2 Study) T Schmitz-Rixen et al (Germany)</b>
12.10 – 12. 20	<b>Score system for recurrence probability after laser surgery for varicose veins I Bihari (Hungary)</b>
12.20 – 12.35	<b>Invited speaker: L. Rasmussen et al. (Denmark) Recurrence after endovenous treatment: treatment options</b>
12.35 – 12.50	<b>Discussion</b>

12.50 – 13.35 **Lunch break**

	<b><i>Crural ulcers (Chair: M Patel, Gy Szolnoky)</i></b>
13.35 – 13.50	<b><i>Invited speaker: F Passariello (Italy) Quantitative haemodynamics by venous ultrasound</i></b>
13.50 – 14.00	<b><i>Endovenous ablation of feeding vein is a good choice for therapy in patients with venous leg ulcer TP Rucigaj (Slovenia)</i></b>
14.00 – 14.10	<b><i>Shave-therapy with simultaneous autodermoplasty for patients with extensive trophic ulcers Y Sorokvasha et al. (Russia)</i></b>
14.10 – 14.20	<b><i>Wound care practices for infected venous leg ulcers and prudent use of antibiotics R Varghese et al. (India)</i></b>
14.20 – 14.30	<b><i>Role of Vitamin D3 in the management of pain in C5- 6 chronic venous disease (CVD): need to include as an integral part of the treatment protocol M Patel et al. (India)</i></b>
14.30 – 14.40	<b><i>Double focal compression bandaging C Sanchez (Spain)</i></b>
14.40 – 14.50	<b><i>Can we use compression therapy in patients with cardiac failure? C Sanchez (Spain)</i></b>
14.50 – 15.00	<b><i>Influence of leg compression treatment on cardiac function Gy Szolnoky, et al. (Hungary)</i></b>
15.00 – 15.20	<b><i>Discussion</i></b>

	<b><i>Thrombosis and anticoagulation (Chair: PL Antignani, Zs. Pecsárdy)</i></b>
15.20 – 15.30	<b><i>Can we prevent post-thrombotic syndrome using NOACs in acute venous thrombosis ? PL Antignani (Italy)</i></b>
15.30 – 15.40	<b><i>Treatment of high-risk pregnancies with tinzaparin H Kiesewetter et al. (Germany)</i></b>
15.40 – 15.50	<b><i>DOAC treatment in fragile patients Zs Pécsvárdy (Hungary)</i></b>
15.50 – 16.00	<b><i>Management of acute thrombosis of greater saphenous vein involving saphenofemoral junction during pregnancy S Xhepa (Albania)</i></b>
	<b><i>Current practice for thromboprophylaxis in Hungary for varicose vein surgery G Menyhei (Hungary)</i></b>
16.00 – 16.10	<b><i>Abdominal deep vein thrombosis profile in an internal medicine department: about 87 cases Djama Mohamed-Lyes et al. (Algeria)</i></b>
16.10 – 16.20	<b><i>Deep vein thrombosis profile in a department of internal medicine: about 85 cases Bounzira Tewfik (Algeria)</i></b>
16.20 – 16.35	<b><i>Discussion</i></b>

16.35 – 16.50

Coffee break

	<b><i>Issues of venous circulation of the brain (Chair: M Simka, F Schelling)</i></b>
16.50 – 17.00	<b>Collapsibility of the internal jugular veins in the lateral decubitus body position: a potential protective role of the cerebral venous outflow against neurodegeneration M Simka et al. (Poland)</b>
17.00 – 17.10	<b>Neuroinflammation and venous lesion of the neck veins in patients with Meniere's disease A Bruno (Italy)</b>
17.10 – 17.20	<b>Glymphatic systems of the brain – physiology and possible role of this system in neurodegeneration M Simka (Poland)</b>
17.20 – 17.30	<b>Cerebro-spinal venous insufficiency (CCSVI) and its possible consequences F Schelling (Austria)</b>
17.30 – 17.45	<b>Discussion</b>

**19.15 – 22.30** **Banquet, Hungarian Evening** (5 min walk. The meeting point is the exhibition area.

*Not included in the registration fee. Dress code: business casual)*

## Saturday 5 October

	<b><i>Foam sclerotherapy (Chair: F Passariello, I Rozsos)</i></b>
8.30 – 8.40	<b>Venous-lymphatic malformations and treatment with foam sclerotherapy PL Antigniani (Italy)</b>
8.40 – 8.50	<b>Reasons of venous reflux mapping inaccuracies misleading treatment plannings in the US and how it can be improved K Fattahi (USA)</b>
8.50 – 9.00	<b>Foam-washout sclerotherapy, a technique geared toward reducing short and long-term complications of regular foam sclerotherapy, and comparison with existing foam sclerotherapy method K Fattahi (USA)</b>
9.00 – 9.10	<b>Diagnosis and Treatment of a 27 cm long symptomatic incompetent perforating vein at thigh level K Fattahi (USA)</b>
9.10 – 9.20	<b>Medical grade plastic containers for oxygen and carbon dioxide to create sclerosing foam A Cardenas (USA)</b>
9.20 – 9.30	<b>Does the extensive endovenous surgery, accelerate venous ulcer healing? F Zernovicky (Slovakia)</b>
9.30 – 9.45	<b>Discussion</b>

	<b>Glue treatment of varicose veins (Chair: K Bozkurt, A Szabó)</b>
9.45 – 10.00	<b>Invited speaker: K. Bozkurt (Turkey) The new n-butyl-2-cyanoacrylate glue ablation catheter incorporated with application guiding light for the treatment of venous insufficiency: Twelve-month results</b>
10.00 – 10.10	<b>Comparison of American and Turkish glue / Bihari et al. (Hungary)</b>
10.10 – 10.20	<b>Comparison of laser and glue in perforator vein treatment / Bihari et al. (Hungary)</b>
10.20 – 10.30	<b>Glue treatment of varicose veins A Szabó (Hungary)</b>
10.30 – 10.45	<b>Discussion</b>

10.45 - 11.00 Coffee break

	<b><i>Servier symposium (Chair: F. Zernovicky, G Menyhei)</i></b>
11.00 – 11.10	<b>Pitfalls of writing guidelines for vascular diseases</b> <i>G Menyhei (Hungary)</i>
11.10 – 11.30	<b>Small saphenous vein reflux - how to treat it wise (not twice)?</b> <i>F. Zernovicky (Slovakia)</i>
11.30 – 11.45	<b>Aesthetics of legs - latest aesthetic techniques, latest methods in chronic venous disease management</b> <i>É Szabó (Hungary)</i>
11.45 – 11.50	<b>Discussion</b>

<b>Varicose veins and their treatment (Chair: A Flor, A Puskás)</b>	
11.50 – 12.00	<b>Haemodynamic remodeling of vein wall</b> Gy. Nádasz <i>et al.</i> (Hungary)
12.00 – 12.10	<b>Prevalence of chronic venous disorders of lower limbs in Algeria: preliminary results</b> B Malika <i>et al.</i> (Algeria)
12.10 – 12.20	<b>Endovenous ablation of leg veins: should we be more or less radical?</b> A Flor (Austria)
12.20 – 12.30	<b>Pulsatile varicose veins of the lower limbs</b> NM Bouayd (Algeria)
12.30 – 12.40	<b>Viscosity estimates in chronic venous diseases</b> F Passariello (Italy)
12.40 – 12.50	<b>CHIVA-laser: office-based ambulatory hemodynamic procedure for conservative treatment of varicose veins</b> A Puskás <i>et al.</i> (Romania)
12.50 – 13.00	<b>Miniphlebectomy according to Várady's method as the mother of aesthetic phlebology</b> J Kalemba (Poland)
13.00 – 13.10	<b>Combination of EVLA, sclerotherapy and miniphlebectomy in treatment of recurrent varicose veins</b> D Slavin <i>et al.</i> (Russia)
13.10 – 13.20	<b>Honorary lecture:</b> Z Várady (Germany) <b>From traditional varicectomy to mini-surgery</b>
13.20 – 13.30	<b>Discussion</b>

13.30 – 14.15      **Lunch break**

<b><i>Aesthetic phlebology (Chair: Z Böhm, MA Parikov)</i></b>	
14.15 – 14.30	<b>Invited speaker:</b> A Flor (Austria) <b>Unwanted veins of the forearm and the hand: treatment options</b>
14.30 – 14.40	<b>Micro-“surgery” of spider veins</b> Z Böhm (Germany )
14.40 – 14.50	<b>CLACS – The new modality in the treatment of teleangiectasias</b> V Kovács et al. (Slovakia)
14.50 – 15.00	<b>Improved sclerotherapy by transillumination</b> R Damisch (Austria)
15.00 – 15.10	<b>Treatment of unaesthetic periorbital veins with 1064 nm long pulsed Nd:YAG laser</b> MA Parikov et al.(Russia)
15.10 – 15.20	<b>Venous insufficiency causing alteration of skin barrier function and microbiome protection</b> J. Daróczy (Hungary)
15.20 – 15.35	<b>Discussion</b>

<b><i>Endothermal surgery for varicose veins 2 (Chair: Ch Ragg, L Chernukha)</i></b>	
15.35 – 15.50	<b>Application of thermal ablation in the treatment of patients with superficial vein thrombosis of lower extremities</b> Shchukin et al. (Ukraine)
15.50 – 16.00	<b>Laser crossectomy</b> P Dragic (Serbia)
16.00 – 16.10	<b>Hybrid AASV-GSV vein: incidence and anatomical pattern</b> O Riabinska et al. (Ukraine)
16.10 – 16.20	<b>Endovenous treatment of post-surgical varicose vein recurrency</b> I Bihari et al. (Hungary)
16.20 – 16.30	<b>Modern opportunities of endovascular techniques in solving the problem of pelvic pain. When, why, how?</b> L Chernukha et al. (Ukraine)
16.30 – 16.40	<b>Eight years of non-saphenous vein endovenous laser ablation with radial fiber</b> MA Parikov et al. (Russia)
16.40 – 16.50	<b>The role of echo-guided foam in varicose ulcer treatment.</b> Isaac Yopan (Mexico)
16.50 – 17.05	<b>Invited speaker:</b> L Chernukha et al. (Ukraine) <b>Possibilities of endovenous laser coagulation in the treatment of patients with congenital abnormalities of the deep venous system of the lower extremities</b>
17.05 – 17.15	<b>Discussion</b>

17.15 – 17.30      Coffee break

	<b>Closing remarks</b>
17.30 – 17.40	<b>Quo vadis (endo)venous surgery</b> <i>I Rozsos (Hungary)</i>
17.40 – 17.55	<b>Invited speaker:</b> <i>Ch Ragg (Germany)</i> <b>Crossroads in phlebology</b>
17.55 – 18.10	<b>Invited speaker:</b> <i>R Milleret (France)</i> <b>Return to the future: 50 years of vascular ultrasound</b>
18.10	<b>Awards prizes</b> (Best Presentation, Best Mini-phlebectomy Presentation, Best Glue Presentation)

*Length of most presentations is 8 minutes, followed by a 2 minute discussion.*

*At the end of each session there is a further possibility to discuss the papers presented.*
